Sir:

The Examiner indicates:

[Prior art do not teach or render obvious a capacitor assembly has an arrangement as claim in claim 6.]

Applicants concur with the reasons as stated by the Examiner insofar as they comprise a summary, and are exemplary and not limiting. However, independent claim 15 as allowed includes other and different language than that specified by the Examiner, and the allowed dependent claims depending from each of independent claims 6 and 15 include other and further

features and elements. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as equivalents thereof.

Respectfully submitted,
